

## Seasoning Salt *Love is the Spice of Life*

<http://somethingturquoise.com/2013/04/19/diy-homemade-love-spice-favor-jar/>

Spice jars from [SpecialtyBottle.com](http://SpecialtyBottle.com) or see the other example below  
Labels (see website for template)  
Measuring cups and ½ teaspoon  
Funnel  
Sea Salt  
Chili Powder  
Ground Coriander  
Garlic Powder  
Ground Mustard  
Onion Powder  
Ground Paprika  
Ground Pepper (black or white)

*Note: feel free to use all spices above or not. Also add others spices if you like; keeping the sea salt as the base.*

To start, each 4 oz spice jar will hold exactly 1/2 cup of 'love spice' ... the recipe is as follows:

1. a little less than 1/2 cup of salt set aside
2. Measure 1/2 teaspoon of each spice (chili powder, ground coriander, garlic powder, ground mustard, onion powder, ground paprika + ground pepper).
3. Once all seven spices are measured, thoroughly mix them together
4. Then add your spice mix into the salt and completely blend them together.
5. Using a funnel carefully pour your homemade seasoning salt into your spice jar.
6. Next pop the lid on the jar
7. Lab the jar with your super cute lab

Note: You can make this recipe in single batches or in a large batch. Make it your own and be a little crazy. Nothing like making something yourself and being on the receiving end of something homemade.
